“ Saddens me that we were divided and that we couldn't share his farewell and send off together. I know it was sudden and that being said you as a mother should of respected my husband's last wish and honored it. It was a beautiful service and he was there but you did not show . You're ego and false pride cost you closer for sending off your baby son. I potty you and send only healing thoughts your way and may you never regret how you handled such a delicate matter like this again. In the end I honored and carry out what my beloved twin flame husband wishes were and that's exactly how he wanted it . Just breaks my heart his mother whom birth him couldn't show her respect and fair well.

My twin flame 2014 and beyond

We married 6-27-16 those numbers were special to us and till this very day ... not a day goes by that he isn't with me or visits me . I always knew our connection transcends, so many things but I keep it private for the two of us and maybe later in the future I may share . I know we can't be the only ones with these paranormal experiences . I embrace it all . I love you my sweet beloved see you soon xx
